                                                                                                                                                                                                                                                                                                                                                                                                                    Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                               Score

FUNCTION: Oxidoreductase required for the transfer of ele from pyruvate to flavodoxin, which reduces nitrogenase.
CATALYTIC ACTIVITY: Pyruvate + CoA + oxidized flavodoxin
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   CoA + CO(2) + reduced
SIMILARITY: The iron-s
